ATTENTION:

To whom it may concern:

Senators:

Senator Sherrod Brown

Senator Rob Portman

Representative Michael Turner

in regard to:

Response for comments on
CG Docket Nos. 03-123 and 10-51 on the
structure and practices of the video
relay service (VRS) program and
on proposed VRS compensation rates.

I am writing on behalf of my
deaf sister, concerning the VRS system.
Taking it away from my sister
would be devastating, not only for
her but our entire family. It is
our ONLY ~~only~~ form of ~~communication~~
communication with her. Not only do we

talk with my sister, but other deaf people as well. It would be devastating for the whole deaf Community, which are many.

VRS is their lifeline, not only to family members, mothers; fathers, sisters, brothers + children, but their lifeline to the world. Which includes schools, doctors, jobs, hospitals, emergency, etc.

Not only the deaf community would be effected, ~~but the~~ many less of jobs, interpreters and others which are employed by the company. That means many more families unemployed and we all know America can not tolerate much more unemployment when VRS came to help the deaf community, the deaf were overjoyed and all of their families, loved one and friends were so happy that we could finally

communicate and satisfy our friends. To
name the wonderful extracting of
them would be difficult. In
this hardly suggests how the old people
left. Word can not soon begin to
apply if we much happenings
mind it always to them and our
in fact with to a they would be
similar. Then knowing they could get
the people in knowing the could get
now make their turn for Gopp, tell
with the first, those and he they
could even under a pipe without
upper necking in pain like this.
I hope to help my son do all these
things, two much more. If
you do ~~not~~ the deal can be
more independent houses in
and this made a big difference in
this ~~one~~ house.

What a blessing someone, somewhere had the brain to come up with such a wonderful invention. Now someone wants to take it away from this wonderful community of deaf people. Their lifeline to the world, will shame on whom ever that is.

If they have to buy their own equipment, it will not be a eligible or as clear. That will only create more frustration and problems for them all, and believe me they have enough frustration and stress.

Maybe a small monthly fee would be an ~~answer~~, if its about money. And that would be a lot of money as there are thousands of deaf people. Even \$5-\$10 a month, that's a lot of money.

Thank you for taking the time
to HEAR me. We are so blessed
to be able to hear, to hear a bird
sing, a child's voice even a train,
etc. This I am asking you, not to
take their lifeline away and the
way they deaf have to HEAR.
ARE YOU LISTENING?

Karen and
Bob Kies -
Grandparents
